

- EXPLANATION**
- Intrusive rhyolite
 - Rhyolite tuff and tuff-breccia
 - Biotite rhyolite flows
 - Clays at unconformity
 - Tuff and tuffaceous sediments
 - Andesite flows
- Post-Clarno rocks**
- Contact, dashed where inferred or projected
 - Fault, dashed where inferred or projected
 - Workings in plane of section
 - Workings projected to plane of section
 - UG 34
 - Diamond-drill hole projected to plane of section
 - Diamond-drill hole intersected by plane of section
- Eocene Clarno formation**

SECTION B-B' HORSE HEAVEN MINE, JEFFERSON COUNTY, OREGON

Geology by A. C. Waters, and R. E. Brown, 1942
